

SWE UCR

SPRING 2022

RECAP

APRIL 16, 2022

BOURNS ENGINEERING DAY

Bourns Science and Engineering Day is one of the IE's largest STEAM (Science, Technology, Engineering, Art, and, Math) events. We teach kids K to 8 about STEAM through fun hands on activities and demonstrations.

BSED is an event that introduces K-12 students to Science, Technology, Engineering, Arts, and Mathematics. Mahima Kapila and Nithya Ramesh organized this year's virtual BSED. There were about 25 participants. The theme was 'Engineering Behind Film' and there was a guest speaker, activities including a coding workshop and a Kahoot competition.

MONDAYS, 2-3 PM

General Meetings

New Officer Social - SWE members got to know the new officers for next academic year. There was also ice cream.

4/4

4/18

Intern Panel - Students speak on what their experience was like during an internship.

Jeopardy - SWE members tested their knowledge on SWE, UCR, songs, and engineering questions.

5/2

5/16

Industry Speaker: Cassie Roby "Tips about the Industry and college to career transition"

Industry Speaker: "Finance and Your Career" by Owen Pierce

5/30
